TO CHOOSE HOW YOU SPEND EACH DAY

PERSONAL CARE

at Luther Acres

OUR PERSONAL CARE PROGRAM offers a supportive, caring, living experience that provides residents with services tailored to meet individual needs. Our warm and welcoming environment encourages residents to reach their full potential. Our program is built upon a commitment to create an overall lifestyle that nourishes the spirit through:

A **close-knit community** that values friendships and fosters a sense of belonging. Our dedicated, skilled, and approachable staff care about our residents and their families. We want to get to know you and your life stories.

An **integrated approach** to health and well-being, including physical, recreational, social, cultural, spiritual, and creative opportunities.

A **dining experience** offered in new, state-of-the-art community kitchens designed to provide residents with the sights, sounds, and aromas of their meals being prepared by a team who cares about their preferences.

A **memory care program** developed by the internationally-recognized Dementia Care Specialists. This program is offered on-site in a comfortable, supportive, and secure home-like environment. Personal Care with Memory Support is also available at our sister community, Spang Crest, in Lebanon.

THAT FEELS LIKE FAMILY

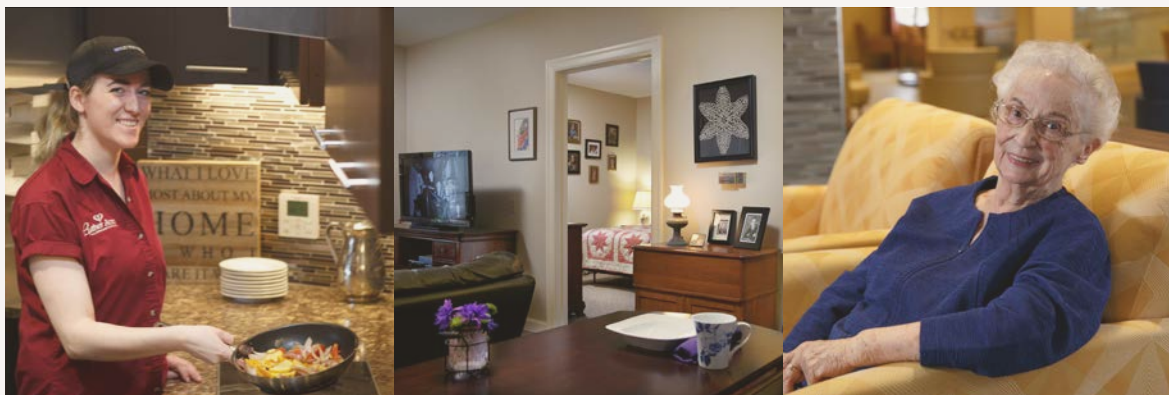

FIND YOUR PLACE

in our beautiful community

Luther Acres can be found in the beautiful, historic town of Lititz, Pennsylvania, voted “America’s Coolest Small Town” by *Budget Travel Magazine*. Personal Care residents appreciate the family-like connections created between one another and members of the Luther Acres’ team. And while enjoying as much independence as possible, residents receive support and assistance with life’s daily activities, tailored to their own individual needs.

Nutrition is an important component of well-being. The team at Luther Acres understands this, so we have created community kitchens on all three floors in our Personal Care areas. They represent a transformational change in the resident experience. Residents are able to enjoy a dining experience on their own schedule, in a setting where they can watch their meals being prepared, and delight in the aromas and scents emanating from the kitchen.

Residents enjoy stylishly appointed private suites in a variety of sizes with full baths and tea kitchens further enhanced by the common areas—lounges, library, community kitchens, and billiards room which serve as extensions of their home. Beautifully landscaped outdoor spaces, including a courtyard with gazebo and raised garden beds and the nearby horticultural center, are in place for residents to plant and attend to, or simply visually appreciate. And the tranquil setting is completed by the peace of mind both residents and their families enjoy, knowing care and support is available anytime of the day or night.

SPECIALIZED MEMORY SUPPORT AVAILABLE

At Luther Acres, we believe nothing is more important than enhancing our residents' well-being, so we offer advanced care practices, dedicated staff with extensive training in memory care, and compassionate services designed to engage and stimulate residents. We are here to support residents and their families as they move through the transitions brought about by memory disorders.

*At Luther Acres, it is our promise
and passion to help each resident live
every day to the fullest, in an environment
and community that feels like home.*
